

§ 21.1

Subpart B—General Requirements and Exceptions

- 21.11 General permit requirements.
- 21.12 General exceptions to permit requirements.
- 21.13 Permit exceptions for captive-reared mallard ducks.
- 21.14 Permit exceptions for captive-bred migratory waterfowl other than mallard ducks.
- 21.15 Authorization of take incidental to military readiness activities.

Subpart C—Specific Permit Provisions

- 21.21 Import and export permits.
- 21.22 Banding or marking permits.
- 21.23 Scientific collecting permits.
- 21.24 Taxidermist permits.
- 21.25 Waterfowl sale and disposal permits.
- 21.26 Special Canada goose permit.
- 21.27 Special purpose permits.
- 21.28 [Reserved]
- 21.29 Falconry standards and falconry permitting.
- 21.30 Raptor propagation permits.
- 21.31 Rehabilitation permits.

Subpart D—Control of Depredating and Otherwise Injurious Birds

- 21.41 Depredation permits.
- 21.42 Authority to issue depredating orders to permit the killing of migratory game birds.
- 21.43 Depredation order for blackbirds, cowbirds, grackles, crows, and magpies.
- 21.44 Depredation order for horned larks, house finches, and white-crowned sparrows in California.
- 21.45 Depredation order for depredating purple gallinules in Louisiana.
- 21.46 Depredation order for depredating scrub jays and Steller's jays in Washington and Oregon.
- 21.47 Depredation order for double-crested cormorants at aquaculture facilities.
- 21.48 Depredation order for double-crested cormorants to protect public resources.
- 21.49 Control order for resident Canada geese at airports and military airfields.
- 21.50 Depredation order for resident Canada geese nests and eggs.
- 21.51 Depredation order for resident Canada geese at agricultural facilities.
- 21.52 Public health control order for resident Canada geese.
- 21.53 Control order for purple swamphens.
- 21.54 Control order for muscovy ducks in the United States.

Subpart E—Control of Overabundant Migratory Bird Populations

- 21.60 Conservation order for light geese.
- 21.61 Population control of resident Canada geese.

50 CFR Ch. I (10–1–14 Edition)

AUTHORITY: 16 U.S.C. 703–712.

AUTHORITY: Pub. L. 65–186, 40 Stat. 755 (1918) (16 U.S.C. 703–712), as amended.

SOURCE: 39 FR 1178, Jan. 4, 1974, unless otherwise noted.

Subpart A—Introduction

§ 21.1 Purpose of regulations.

The regulations contained in this part supplement the general permit regulations of part 13 of this subchapter with respect to permits for the taking, possession, transportation, sale, purchase, barter, importation, exportation, and banding or marking of migratory birds. This part also provides certain exceptions to permit requirements for public, scientific, or educational institutions, and establishes depredation orders which provide limited exceptions to the Migratory Bird Treaty Act (16 U.S.C. 703–712).

[54 FR 38150, Sept. 14, 1989]

§ 21.2 Scope of regulations.

(a) Migratory birds, their parts, nests, or eggs, lawfully acquired prior to the effective date of Federal protection under the Migratory Bird Treaty Act (16 U.S.C. 703–712) may be possessed or transported without a permit, but may not be imported, exported, purchased, sold, bartered, or offered for purchase, sale or barter, and all shipments of such birds must be marked as provided by part 14 of this subchapter: *Provide*, no exemption from any statute or regulation shall accrue to any offspring of such migratory birds.

(b) This part, except for § 21.12(a), (c), and (d) (general permit exceptions); § 21.22 (banding or marking); § 21.29 (falconry); and § 21.31 (rehabilitation), does not apply to the bald eagle (*Haliaeetus leucocephalus*) or the golden eagle (*Aquila chrysaetos*), for which regulations are provided in part 22 of this subchapter.

(c) The provisions of this part are in addition to, and are not in lieu of other regulations of this subchapter B which may require a permit or prescribe additional restrictions or conditions for the

importation, exportation, and interstate transportation of wildlife (see also part 13).

[39 FR 1178, Jan. 4, 1974, as amended at 46 FR 42680, Aug. 24, 1981; 68 FR 61137, Oct. 27, 2003; 73 FR 59465, Oct. 8, 2008]

§21.3 Definitions.

In addition to definitions contained in part 10 of this chapter, and unless the context requires otherwise, as used in this part:

Armed Forces means the Army, Navy, Air Force, Marine Corps, Coast Guard, and the National Guard of any State.

Bred in captivity or *captive-bred* refers to raptors, including eggs, hatched in captivity from parents that mated or otherwise transferred gametes in captivity.

Captivity means that a live raptor is held in a controlled environment that is intensively manipulated by man for the purpose of producing raptors of selected species, and that has boundaries designed to prevent raptors, eggs or gametes of the selected species from entering or leaving the controlled environment. General characteristics of captivity may include, but are not limited to, artificial housing, waste removal, health care, protection from predators, and artificially supplied food.

Conservation measures, as used in §21.15, means project design or mitigation activities that are reasonable from a scientific, technological, and economic standpoint, and are necessary to avoid, minimize, or mitigate the take of migratory birds or other adverse impacts. Conservation measures should be implemented in a reasonable period of time.

Falconry is caring for and training raptors for pursuit of wild game, and hunting wild game with raptors. Falconry includes the taking of raptors from the wild to use in the sport; and caring for, training, and transporting raptors held for falconry.

Hacking is the temporary release of a raptor held for falconry to the wild so that it must survive on its own.

Hybrid means any bird that results from a cross of genetic material between two separate taxa when one or both are listed at 50 CFR 10.13, and any progeny of those birds.

Imprint, for the purposes of falconry, means a bird that is hand-raised, from 2 weeks of age until it has fledged, and has identified itself with humans rather than its own species. An imprinted bird is considered to be so for its entire lifetime.

Livestock depredation area means a specific geographic location in which depredation by golden eagles has been recognized. The boundaries and duration of a livestock depredation area are declared by U.S.D.A. Wildlife Services or by a State governor.

Military readiness activity, as defined in Pub. L. 107-314, §315(f), 116 Stat. 2458 (Dec. 2, 2002) [Pub. L. §319 (c)(1)], includes all training and operations of the Armed Forces that relate to combat, and the adequate and realistic testing of military equipment, vehicles, weapons, and sensors for proper operation and suitability for combat use. It does not include (a) routine operation of installation operating support functions, such as: administrative offices; military exchanges; commissaries; water treatment facilities; storage facilities; schools; housing; motor pools; laundries; morale, welfare, and recreation activities; shops; and mess halls, (b) operation of industrial activities, or (c) construction or demolition of facilities listed above.

Population, as used in §21.15, means a group of distinct, coexisting, conspecific individuals, whose breeding site fidelity, migration routes, and wintering areas are temporally and spatially stable, sufficiently distinct geographically (at some time of the year), and adequately described so that the population can be effectively monitored to discern changes in its status.

Raptor means a migratory bird of the Order Accipitriformes, the Order Falconiformes, or the Order Strigiformes listed in §10.13 of this chapter, including the bald eagle (*Haliaeetus leucocephalus*) and the golden eagle (*Aquila chrysaetos*).

Resident Canada geese means Canada geese that nest within the lower 48 States and the District of Columbia in the months of March, April, May, or June, or reside within the lower 48 States and the District of Columbia in the months of April, May, June, July, or August.
